### 2010 MANITOBA PROVINCIAL DANCE FESTIVAL FOR SOLOS, DUOS, TRIOS

---

Over the years, Dance Manitoba has made many attempts to accommodate the use of individual camera / recording devices. Unfortunately many abuses and misuses of video taping occurred that Dance Manitoba changed its policy in 2000 to its current policy:

**No recording devices OF ANY KIND will be permitted in the theatre during the Manitoba Provincial Dance Festival. This is to ensure the safety and privacy of the performers.**

With the capability to download, post and share pictures and videos on the internet, without consent, is the reality of our society. It is disheartening to know that the privacy of a performer and choreographer of the Provincial Dance Festival can be so easily disregarded. **Dance Manitoba will not alter its current policy, as our obligation is to offer a safe environment for all of our participants.** However, we would like to introduce an opportunity that we hope will alleviate the frustration and disappointment experienced by all.

**AAA Video Recording**, will be offering DVD recording services for the categories of Solos, Duos and Trios **ONLY**, as many of these are only performed at the Provincial Dance Festival.
